DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 22, 2005, has been entered.

Status of Application, Amendments, and/or Claims

2. In an amendment filed September 22, 2005, Applicants amended claims 1, 6, 13, 14, 15, 18, 19, 25, 27, 32-37, 40, 44, 46, 49, 52, 56 and added new claims 75-88. Claims 1, 4-7, 11, 13-15, 18, 19, 22, 25, 27, 32-49, 52-56 and 75-88 are currently pending and under examination.

3. Applicants' amendments overcame the rejections of record in the office action mailed June 14, 2005.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance: Applicants' invention is drawn to a method of making a double stranded recombinant nucleic acid molecule covalently linked at both ends using topoisomerase recognition sites at or near each of the ends of the constituent nucleic acid molecules. The closest prior art reference Shuman et al. teach a single topoisomerase recognition site at one of the two ends and there is no suggestion in the art to add an additional topoisomerase recognition site to the second end.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
